It was resolved to approve expenditure, proposed by Cllr John Pattrick, seconded by Cllr Helen Calderbank, all in favour.

8. District Councillor's and County Councillor's reports: see Appendix.

9. Community Resilience and Emergency Plan

To be in proportion with Postling as a village and a community, a Local Coordinator will be investigated to source volunteers whose skills/expertise/offer could go on a parish list to be called upon if needed.

Examples of volunteers: clearing roads blocked by fallen trees, emergency shopping supplies, collecting prescriptions, emergency care, etc. It is thought an informal list of volunteers may already be in existence at the Church and contact will be made.

10. Otterpool Park

The Chairman attended an online meeting on 15 Sept where the five parish councils neighbouring Otterpool were represented.

Matters raised included: schools provision; recreation space; location of new town centre; height of buildings (highest point possibly 3 storeys in town centre); a community building (Westenhanger Castle and barn will be utilised and the medical centre will have community rooms/facilities); social housing; commercial properties (quality supermarket preferred); roads infrastructure.

Further meetings with neighbouring parish councils will be held.

11. Postling fingerpost sign repainting

A parishioner approached KCC to volunteer to repaint the fingerpost sign near the phone box. KCC approved, and Councillors approved unanimously for the work to go ahead.

12. Cyclists through Postling

An email from a parishioner which raised concerns about the speed of cyclists through Postling, their loud instructions to each other, and the possibility of causing an accident, was discussed. District and County Councillors followed the discussion and didn't feel a sign would be of benefit but agreed it would be helpful for all road users if potholes on Cuckoo Lane are repaired. Some work is scheduled but resurfacing will be pursued.

County Councillor explained that speed limit reduction would be too costly and is at present impractical, but highlighted that KCC has suggested to the Department for Transport that the speed limits for built up areas be 20mph by default in the way they are now 30mph and that all other single lane roads be 40mph instead of 60mph. Any roads that were deemed safe to be a higher speed could then be signed. This would be a lot cheaper than the current system on Kent's 5,000 mile road network. This would then bring Postling's limit down to 20mph.

13. Correspondence received

- Kent Police and Crime Commissioner Road Safety and Enforcement survey: circulated to parishioners
- KALC Covid-19 Financial Impact Survey completed 11.8.2020
- Otterpool Park Ecology Briefing received 16.9.2020
- ACRK Rural Housing Needs Enabler email re Local Needs Affordable Housing.

14. For information

- The Clerk attended the KALC Clerk's Conference held online on 24 September. The cost was shared with Upper Hardres Parish Council where Clare is also Clerk.
- Next meeting 25 November, online.

8. District and County Councillors' Report:

KCC report

Kent County Council has now agreed in-year savings to its budget to cope with the extra spending caused by loss of income, delayed savings and extra costs mostly caused by the pandemic. One of the savings was a reduction in the KCC member grants which means I have sadly no further funds for this year.

We have also adopted two important plans which secure the sites needed for waste management and mineral extraction in Kent. They are the Minerals Site Plan and an Early Partial Review of the Kent Minerals and Waste Plan. They have taken years of work, much consultation and they have been found to be sound by an independent planning Inspector. Landowners in Postling had submitted a site for sand extraction in the early stages of this process but it was withdrawn and is not in either of the two adopted plans.

KCC has also adopted a plan to reach net-zero carbon emissions for its own services and estate by 2030 using a scenario model developed by Laser energy which is the council's own energy company. The plan involves investing in renewable energy, shifting to electric vehicles and more home working.

If anyone has been thinking about installing solar panels, they can take advantage of a collective buying scheme being organised by KCC through Solar Together. Nearly 2,669 Kent households have now signed up and the reverse auction with pre-vetted solar installation companies is on 06 October. There's no commitment until the price is known. Those who already have solar panels can take part in adding to their storage capacity. The scheme is also open to community buildings and businesses in Kent.

The very final repayment has been made of monies owed to KCC from deposits in Iceland in 2008. The full £50m has been returned in tranches over several years with nearly £3m in interest on top of this. KCC is one of the few organisations to get 100% plus interest returned.

If you know of any young people (11 – 18 years or 11 to 25 if they have special educational needs) who deserve an award, please nominate them for a Try Angle Award before 30 November. The categories are Arts, Community Action, Courage, Good Friends and Young Carers, Music, Personal Development, Positive Intervention, Sport or Outdoor Activities. This should enable all efforts to be recognised. Just being nominated can encourage a young person.

See <https://www.kent.gov.uk/education-and-children/young-people/try-angle-awards>

Please continue to report any potholes and particularly any drains you see that are blocked by silt or leaves in advance of the winter rains.

District Council

The council has retained its award for Customer Service Excellence which it's held since 2013. This accreditation is externally audited by iESE and covers 57 standards. The council was found to be compliant across all these and achieved a score of Compliance Plus for 15 areas which is the highest score and means service goes 'above and beyond' what's expected. Compliance plus is awarded when practice is innovative and something that could be shared and replicated in other organisations. The assessor also commented on how well the council has risen to the challenges of COVID-19.

A new 8-year contract from January 2021 has been agreed with Veolia to continue the kerbside waste and recycling collections. The new contract will include a new 'green' fleet of vehicles and a number of initiatives to help us achieve the council's ambition of Net Zero for its services by 2030. Services to your property will continue to be alternating fortnightly waste and recycling collections and a weekly food waste collection.

A clear majority of councillors have now voted to adopt the *Places and Policies Local Plan*. This means the council is in a strong position to resist any speculative housing developments whilst meeting our legal obligation to provide sufficient land for future homes and jobs.

Jenny was part of the panel that held a public meeting last Friday about the Home Office placing 400 young men seeking asylum at Napier Barracks in Cheriton. This meeting can be seen on:
